

First arrivals of the nations at the lycée Germaine Tillion

This monday, the 3rd of june, was marked by the beginning of the world championship triathlon UNSS. Taiwanese and Chilean triathletes were already on site since some days, and they were the first to arrive at Germaine Tillion school this morning, at 11am. After some photos and questions by the young reporters, the athletes installed themselves in their rooms during these championships, at boarding school.

Chilean were the first to arrive, and to answer to the filmed interview by the young reporters, of which we can remember their enthusiasm and the word « funny » used to describe their future experience.

Few minutes later, the team coming from Taiwan, composed of 3 trainers and 8 athletes arrived, and 3 of them answered to the same interview than they Chilean contestant. We'll retain that this competition isn't their first international tournament, and that they train really regularly, making them impressive triathletes.
